Training Advisory Council Ltd

# National Broadband - What does it mean for your business?

The National Broadband Network is an Australian Government initiative that will affect all areas of our lives, from the way we work, to the way we play; from the way we receive treatment when we are ill, to the way we receive our education. It is Australia's largest national infrastructure project.

MITAC is proud to present an information session for Territory businesses with guest speakers

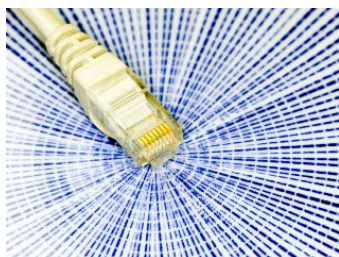

**David Auld**

General Manager - Training Strategy & Internal  
Communications NBN Co

&

**Mr Dominic Schipano**

National Exec Officer - Communications & Information  
Technology Training Ltd (CITT)

The session will give attendees a background of the NBN, an overview and insights of the NBN Co Workforce Development Strategy and will highlight the training opportunities available.

**When:** 5-7pm Wednesday 16th February

**Where:** Mauna Loa Room

Vibe Hotel Darwin Waterfront

**RSVP:** COB Monday 14th February
